PROFESSIONAL SUMMARY

Senior UI/UX Designer with 5+ years of experience designing bilingual (Arabic/English, RTL/LTR) digital products for government ministries, public authorities, and enterprise clients across Qatar, Saudi Arabia, the UAE and Egypt. Shipped 17 products for 8+ government and public-sector institutions — including a national digital ministry, a pensions authority, and a standards body — translating dense regulatory and multi-stakeholder requirements into interfaces citizens and staff can use with confidence, end-to-end from user research and information architecture through to production-ready design systems and developer handoff. That work includes Jood Eskan's donation platform, honored with an official Guinness World Records title (2023).

PROFESSIONAL EXPERIENCE

UI/UX Designer — Mannai Corporation

Oct 2024 – Present

Doha, Qatar · Full-time

- Serving as a UI/UX Consultant across 11 concurrent government and enterprise clients, including Qatar National Library, MCIT (Qatar's Digital Ministry), GRSIA ("Daman"), Qatar University, the Ministry of Environment & Climate Change, Al-Awalia (QPMC), Manateq, TRAGS, the Community College of Qatar, the General Authority for Minors' Affairs, and Qatar Stars League.
- ▶ Design a reusable homepage and design-system template for Qatar National Library that scales across the public site and multiple internal staff microsites, standardizing the experience without flattening 4 distinct content types (news, media, shared documents, and correspondence).
 - ▶ Redesign MCIT's shared operations calendar and public careers portal into a single hub, giving every ministry department one place to coordinate initiatives under Qatar's Digital Agenda 2030.
 - ▶ Rebuild GRSIA's public identity ("Daman") into one consistent design system spanning 5 distinct content types — news, magazine, media center, archive, and enhanced pension services.
 - ▶ Build the Ministry of Environment & Climate Change's environmental-permit self-check flow, routing applicants across 130+ permit types in 8 categories to the correct request before they ever open a form.
 - ▶ Deliver a single drill-down financial-compliance dashboard template for Qatar Stars League, reused across league-wide, division, club, and individual-player contract views for 20+ member football clubs.

- ▶ Launch a bilingual self-service student portal for the Community College of Qatar covering 50 services across registration, requests, and graduation workflows for students, advisors, and staff.

UI/UX Designer — Saudi Azm

Sep 2024 – Sep 2025

Riyadh, Saudi Arabia · Part-time

Engaged as a UI/UX Consultant for the Saudi Standards, Metrology & Quality Organization (SASO), Mehrab, and Maneh.

- ▶ Redesigned SASO's public service catalog (20+ license and permit types) around a lookup-first request pattern, replacing multi-section technical forms with a single certificate-number search.
- ▶ Created Mehrab's mosque-donation platform (SAR 1.5M+ raised to date), scoping every mosque case with its own address, capacity, and progress tracker.

UI/UX Designer — AZM X

Jan 2023 – Nov 2024

Saudi Arabia · Full-time

- ▶ Led the design of Jood Easkan's donation platform and self-service kiosk for a Ramadan campaign spanning 340+ partner associations and 450,000+ beneficiaries nationwide; the campaign set an official Guinness World Records title in April 2023 for the largest month-long electronic charitable drive in the world.
- ▶ Developed UX for 2 major Saudi platforms: the Social Development Bank and the national E-Invoice system.

UI/UX Designer — Alborhan Academy

Oct 2022 – Feb 2023

Saudi Arabia · Freelance, Part-time

- ▶ Delivered Surah App, a bilingual Qur'an study application spanning reading, translation, and classical tafsir, shipped across 4 platforms (Huawei AppGallery, Google Play, App Store, and Windows Store) plus a public API.

UI/UX Designer — Webtek

Oct 2022 – Feb 2023

Dubai, UAE · Full-time

- ▶ Shaped Optimum Vision, a concierge app for tourists and investors in Dubai organized around 5 service categories; shipped live on the App Store.

UI/UX Designer — Content X

Aug 2021 – Feb 2022

Egypt · Full-time

UI Designer — EVERVIPE Media

Feb 2021 – Jul 2021

Egypt · Full-time
